## GrainCorp Harvest Overload Policy update

**29 October 2019**

For the 2019/20 harvest, GrainCorp will make the following policy changes to manage trucks delivering grain ex-farm, where the gross weight exceeds the legal mass limit:

- In all states, an overload warning email will be sent to the address associated with the National Grower Register (NGR) number;
- In NSW, GrainCorp will switch off charity donation;
- In Victoria, phone-call communication will be replaced by emails.

The following page includes:

- A table summarising the changes;
- An example email; and
- How to identify overload warnings in CropConnect.

At the end of the 2018/19 harvest, VicRoads contacted registered owners of trucks to advise of a recorded increase in overload instances. For the 2019/20 harvest, VicRoads indicate that this communication may occur more frequently.

For any questions, please phone the Grower Services Hotline on 1800 809 482 (Option 1).

Regards,

**Nigel Lotz**

Receival Docket : 375700009269  
Mass Limit : 44.63  
Gross Weight : 44.82

Gross % Mass Limit : 100.43 %

GrainCorp participate in the Grain Harvest Management Scheme in the state where this delivery occurs. To participate in these schemes, GrainCorp must report all delivery data to the heavy vehicle regulator for that state.

Please treat this Warning Notice as guidance that caution must be exercised when loading this vehicle to ensure legal mass limits are known and not exceeded.

Overloading offences carry substantial penalties under the Heavy Vehicle National Law and associated legislation and regulations.

For further information about this delivery, please log into CropConnect, or phone the Grower Services Hotline on 1800 809 482.
